

# **Penn State Mont Alto: Performance Review Considering In-Scope and Out-of Scope Campuses**

Data-Based Evaluation of Commonwealth Campuses Using Penn State's Own Metrics  
(prepared on 7/25/25)

**Purpose:** To provide a transparent, comparative analysis of Mont Alto's performance across core metrics — including enrollment, academic outcomes, cost efficiency, and community impact — in the context of the broader Commonwealth Campus review.

**Prepared by: Sheila Vieira**  
Ph.D. in Mechanical Engineering  
*Penn State Parent*

This document presents the summary of our analysis of the data included in the [PSU CWC Workgroup Recommendation](#). The evaluation was conducted using the performance indicators outlined in the original report to ensure consistency with the framework provided by the Workgroup.

We used the performance indicators outlined in the university's own report as the basis for our analysis. For each measure, we applied two scoring methods:

- **All Campuses (In Scope and Out of Scope):**

We identified the top 13 performing campuses and assigned each a score of 1; all others received a score of 0.

- **In-Scope Campuses Only:**

We identified the top 5 performing campuses among those under review and assigned each a score of 1; all others received a score of 0.

This process was applied consistently across all performance criteria. Each campus's scores were totaled to produce an overall performance score. Based on this analysis, we recommended **continued investment in the campuses with the highest total scores**, as they demonstrated the strongest performance using the university's own benchmarks.

We believe these findings offer a **clear, data-driven foundation** for making informed, transparent decisions about the future of Pennsylvania's public higher education system.

**The results for both scoring methods are presented below.**

- **All Campuses (In Scope and Out of Scope)**: the top 13 performing campuses are:

- 1- Scranton / York / Brandywine (16 points)
- 2- Hazleton / **Mont Alto** / Abington / Berks / Harrisburg (15 points)
- 3- Erie (14 points)
- 4- Lehigh Valley (13 points)
- 5- Beaver / Schuylkill (12 points)
- 6- Altoona (11 points)

Using this scoring method, **2 of the 8 top-performing campuses—York and Mont Alto—were recommended for closure**, despite their strong performance across the university's own metrics.

Criterium	In Scope Campuses												Out of Scope Campuses							
	Beaver	DuBois	Fayette	Greater Allegheny	Hazleton	Mont Alto	New Kensington	Schuylkill	Scranton	Shenango	Wilkes-Barre	York	Abington	Altoona	Berks	Brandywine	Erie / Behrend	Great Valley	Harrisburg	Lehigh Valley
Total Number of Students	1	0	0	0	1	1	0	1	1	0	0	1	1	1	1	1	1	0	1	1

The following section presents graphs showing the scoring results for the in-scope campuses only.

### **Performance Breakdown – In-Scope Campuses**

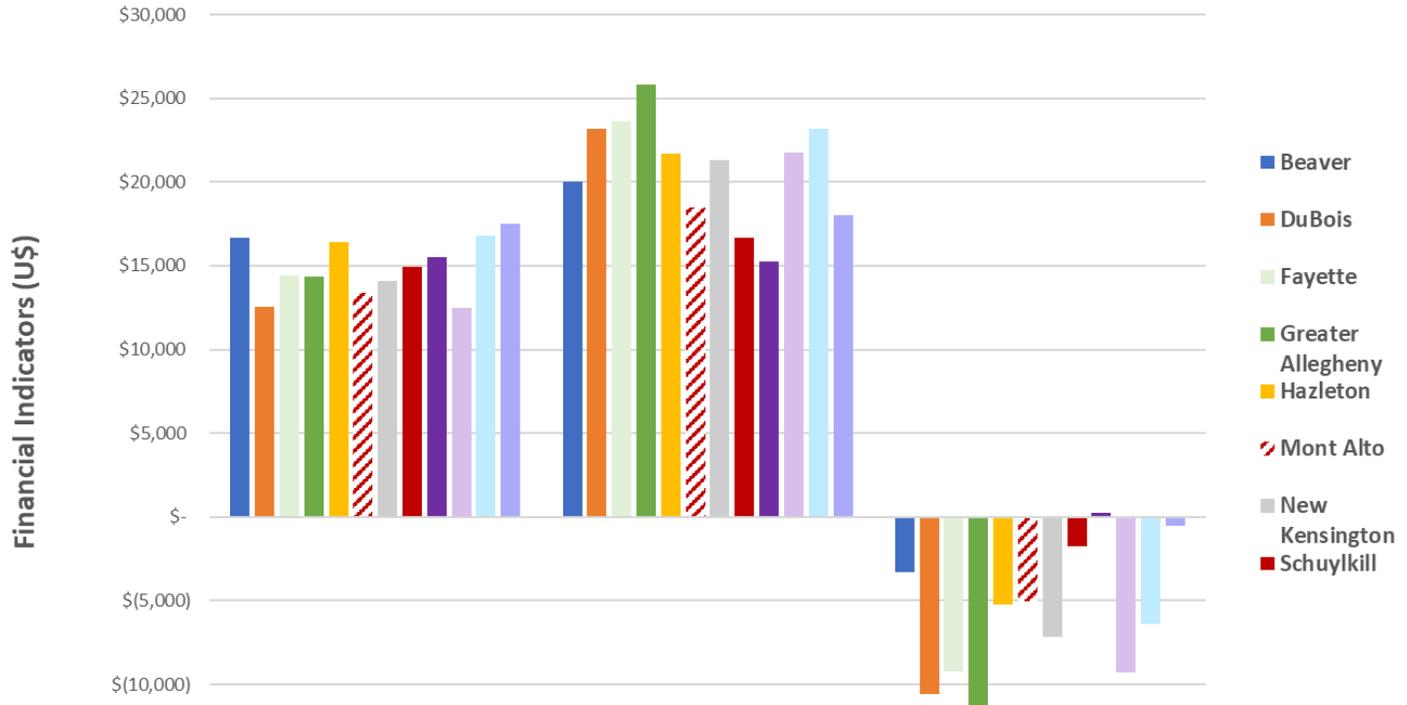

Below are the details of the scoring method applied to in-scope campuses only, including graphs for each performance indicator and the top five campuses identified for each indicator.

Performance Indicator	Top 5 campuses	Graph
Total number of students	1. Scranton 2. York 3. Schuylkill 4. Mont Alto 5. Hazelton	<p data-bbox="583 451 1600 490">Number of students enrolled at each Penn State campus (2014 - 2024)</p>  <p data-bbox="457 795 493 1039">Number of students</p> <p data-bbox="1113 1307 1176 1339">Year</p> <ul data-bbox="1612 714 1837 1112" style="list-style-type: none"> <li>Beaver</li> <li>DuBois</li> <li>Fayette</li> <li>Greater Allegheny</li> <li>Hazleton</li> <li>Monto Alto</li> <li>New Kensington</li> <li>Schuylkill</li> <li>Scranton</li> <li>Shenango</li> <li>Wilkes-Barre</li> <li>York</li> </ul>

Net Balance / Student

1. Scranton
2. York
3. Schuylkill
4. Beaver
5. Mont Alto

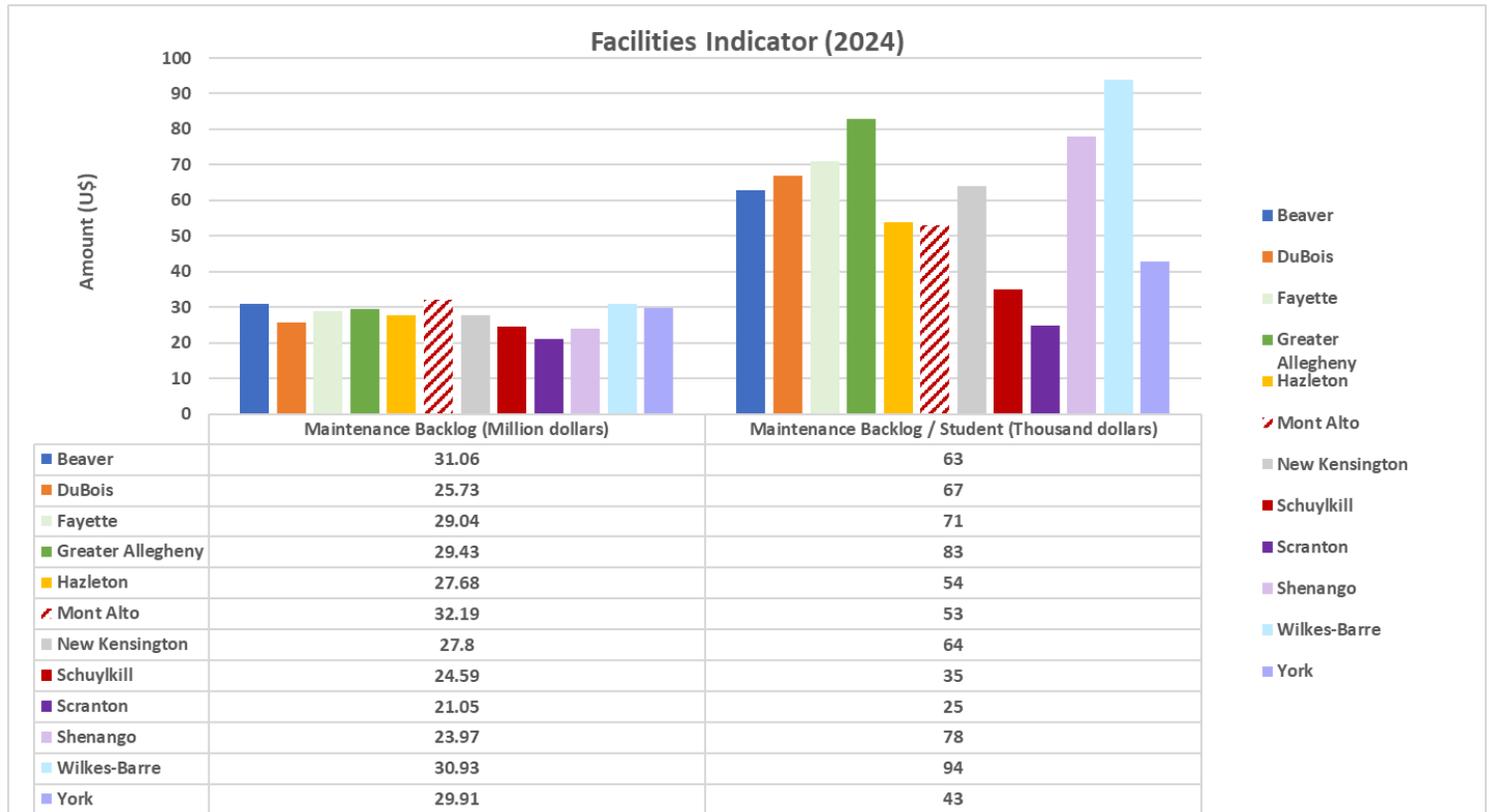

### Core Business Indicators (2024)

	Net Revenue/Student	Total Expenses/Student	Net Balance / Student
Beaver	\$16,678.79	\$19,999.81	\$(3,321.03)
DuBois	\$12,560.42	\$23,142.34	\$(10,581.92)
Fayette	\$14,423.64	\$23,648.81	\$(9,225.17)
Greater Allegheny	\$14,376.49	\$25,787.58	\$(11,411.09)
Hazleton	\$16,408.70	\$21,669.28	\$(5,260.59)
Mont Alto	\$13,403.59	\$18,444.48	\$(5,040.90)
New Kensington	\$14,092.58	\$21,275.09	\$(7,182.50)
Schuylkill	\$14,926.11	\$16,660.38	\$(1,734.26)
Scranton	\$15,509.02	\$15,257.15	\$251.87
Shenango	\$12,476.52	\$21,757.35	\$(9,280.83)
Wilkes-Barre	\$16,805.97	\$23,194.23	\$(6,388.26)
York	\$17,489.87	\$18,041.01	\$(551.14)

Maintenance Backlog / Student

Scranton	0.8	-1.3
Shenango	-6.6	-3.6
Wilkes-Barre	3.6	1.7
York	4	-3.9

Population Decrease or No Change    Population Increase

### **Suggestions for Mont Alto Campus Improvement:**

Below is a list of suggestions to improve Mont Alto campus enrollment

1. Community-driven initiatives could play a valuable role in supporting the future of campuses like Mont Alto. For example, local “Save Our Campus” campaigns could be launched in surrounding cities, where donors and community members come together to organize fundraising events such as festivals, with all proceeds benefiting the university.

2. Given that Mont Alto was founded in 1903, the campus may also be eligible for grants aimed at preserving and renovating historic buildings—an opportunity worth exploring to help offset infrastructure costs.
3. Additionally, there is potential for student-led innovation. Business and marketing students could take part in a campus-wide challenge to develop strategies for increasing enrollment. A friendly competition among Commonwealth Campuses could incentivize participation, with the winning team receiving a prize that would directly benefit their home campus. Initiatives like these foster creativity, community investment, and real-world learning opportunities while supporting the long-term sustainability of regional campuses.
